

General Information

I. Purpose

Use this report to remit the Oilheat research assessment fees on sales to consumers in participating states which do not have the supplier collection system. Those states are Indiana, Nevada and Washington.

II. Who Must Report

Only retailers who sell to commercial or residential heating consumers need to file. If all of the retail sales of #2 dyed fuel are for non heating purposes, no report is necessary. If the importer of record into the U.S. is not a prime supplier listed on the exclusionary list, that person (importer) must submit the report and fees directly on all sales which would be reported by a prime supplier. If a retailer purchases low sulfur diesel fuel from a prime supplier without the fee, but sells the products as low sulfur heating fuel oil, the retailer must report and pay the fees upon his oil heating sales on **Form 782B**.

III. What and Where to Submit

Submit a Remittance Schedule for each quarter for each State in which any of the listed products were sold and delivered to consumers for non-industrial commercial or residential space or hot water heating.

IV. When to Submit

Reports must be submitted 25 calendar days following the close of the quarter. (April 25, July 25, October 25, January 25). If payment due is less than \$100, payment may be delayed until the total payment is \$100, or until the year end return is due. A return must be filed annually. Postmark date, delivery date to private courier service or EFT date will be treated as date of filing. If the 25th falls on a banking holiday, the due date will be the next banking day. A late payment fee of 5% plus 1% per month interest will be assessed on payments not meeting the above dates.
